May 8, 2020

Dear CAPS' Community:

I hope you are doing well this week as we continue to work through a variety of opportunities. A few items to keep in mind as we continue moving forward:

- Our District Buildings will be providing some ideas in the upcoming weeks to continue some learning options through the summer for our students. A schedule or routine of a few minutes each day of academic activity or reading will provide an important way to maintain our students' level of performance.
- As we continue over the next few weeks, you will hear a lot of speculation about schools and the future. There are all different perspectives and there will be a lot of different thoughts which circulate. Be assured that we will communicate information to you that we believe is accurate regarding school in the Fall.
- You will hear more information in the next week about the economic impact of the COVID-19 pandemic and the impact on the State revenue and subsequent school funding. We do expect a lot of shifts and changes in information over the next several months as well. This will be a situation for all schools to work through over the next few years, but we are hopeful for some additional support through the Federal Government to offset some of the decreased State revenue.
- We are planning on various financial scenarios, but some of the current uncertainty will settle over time to provide better clarity.
- Our buildings provided opportunities to pick up student belongings over the last two weeks. If you did not have an opportunity to pick up your child's belongings, please contact the building office to arrange a time.

Thank you for continuing to reach out to help others in support during this time. To all the moms - Happy Mother's Day!

Sincerely,

Ron Veldman
Superintendent
