A Note from the President. . .

My phone has rang like crazy over the last two weeks regarding parents concerned with H1N1 virus and what can the PTA do to assist with the spreading of these germs between our students. First of all, let me assure all of you that the School Administration has this issue well taken care of. I know that it is a scary bug that is going around, I had both of my children home from school for a week because of the germs flying around. The janitorial staff is cleaning and disinfecting the schools on a daily basis and teachers are reminding our children to cover their mouths when coughing and sneezing and to wash their hands every chance they get.

Next, it is important that as parents we remind our

children to use these same habits at home. Any reinforcement we parents can provide in this area is a great help to the staff members at school.

Finally, I would like to ask everyone to please take a deep breath the winter season is just beginning and runny noses, fevers and coughs are going to be here for several months.

If anyone still has a concern about the illness traveling through the schools, please do not hesitate to contact the School Administration they are more than willing to answer any and all of your concerns.

Lisa Barkel

I want to take this opportunity to thank the School Administration for all of their hard work on the new playground at the South Elementary. This playground is completely handicap accessible, for the first time in nine years I was able to play with my children as they played on the playground! I was never able to push my children on the swings until now! This was truly an answer to a prayer! THANK YOU!!!
