April 1, 2026

Over spring break, Infinite Campus will be updating the district's URLs. This will occur on Friday, April 10, 2026. Infinite Campus will be down for most of the day, but may also not work over the weekend. We understand that this is not ideal timing, but the decision was out of our control.

Old URLs will be redirected for up to two years, but we recommend that you update your bookmarks with the new URLs so you don't forget. We will be sending another email on Monday, April 13, 2026, with updated information.

One thing that is important, is updating your security email if you haven't done this yet. This will help with the forgot password feature. Below is a screenshot of what you will need to verify. Thank you!

Account Settings

Account settings allow users to update their security email on record or to change their Password and E-Signature PIN.

- The Account Security Email is the email used if a user forgets their username or password.
- Passwords can only be modified if the district has enabled Password Reset. Strong passwords are enforced, meaning that passwords should have a mix of letters, number, and characters to make them more secure.
